Do you remember these celebrities? Since the Western film genre is as old as Hollywood filmmaking itself, many Silent Film Era actors appeared in the Westerns of the time. Film historians identify William S. Hart as the first Western film hero who is the epitome of what we now know of typical Western film protagonists: a man of integrity who fights when necessary and is honorable in his intentions and action. His silent film from 1925 called Tumbleweeds started it all, paving the way for future Western film heroes to evolve and evolve from this character's archetype. As the Western film genre flourished, so did the many different Western films heroes. The concept of the anti-hero came to be, with outlaws becoming the protagonists of Western films. They may not have the honor and integrity of the typical Western hero, but these figures gave the Western character a more nuanced context. They now seemed more human, and less of a perfect hero. In the process, they were also relatable to the audience. Until now, the Western genre is still being revised and reformed. But the big stars would still like to star in them as they see it as a good opportunity to contribute to the Western genre. The notoriously unsuitable novel is again being adapted, and this time it could actually be good. Here's what we know so far. It has been postponed until 2021.Dune was originally slated to debut in theaters on December 18, 2020-but due to the ongoing pandemic, and the accompanying widespread closure of cinemas, it has been rescheduled. Per The Hollywood Reporter, Warner Bros. is now eyeing an October 2021 premiere, likely October 1. The cast is stacked. Timothée Chalamet plays Paul Atreides, son of the Duke Leto Atreides (Oscar Isaac) and his concubine, the Bene Gesserit-educated Lady Jessica (Rebecca Ferguson). The story begins as the family moves from their lush home planet, Caladan, to rule over another: the worm filled desert that is Arrakis, otherwise known as Duke's trusted advisers, Gurney Halleck and Idaho, and played by Josh Brolin and Jason Momoa, respectively, while Javier Bardem portrays Stilgar, a leader of Arraki's native Fremen, and Sharon Duncan-Brewster appear as Dr. Liet-Kynes, an ecologist with a foot in both worlds (and a character whom Herbert had originally written as a man). Zendaya on takes on the role of Chani, Paul's love interest. Joining them are Stellan Skarsgård as Baron Vladimir Harkonnen, Dave Bautista as his nephew Beast Rabban, and Charlotte Rampling as The Reverend Mother Gaius Helen Mohiam. A sci-fi auteur runs the show. Denis Villeneuve, he of Arrival and Blade Runner 2049 fame, is directing Dune-and he had a great condition to sign on. I wouldn't agree with making this adaptation of the book with a single film, Villeneuve told Vanity Fair in May. The world is too complex. It's a world that takes its power in detail. That's right: there's already a Dune 2 on the horizon (though it may be pretty far away). He also insisted that they shoot in the desert itself, and built as many sets as possible, rather than relying solely on CGI. My argument is that they don't shoot Jaws in a swimming pool. Villeneuve explained during a digital press event for the trailer debut. The title is Dune, and we needed to be in the real environment so we would be inspired by infinity.
